

Safety first

The headline of an article in *Bulk Distributor's* March 2006 issue, posed the question: "How safe are flexitanks?" Flexitank operator and manufacturer **Trans Ocean Distribution Limited** has carried out detailed analysis of its RhinoBulk design to ensure its safe design and operation. The company's president and COO, **Brendan McKenna**, explains the testing process and reviews the results

In his article in the March issue of *Bulk Distributor*, **Theo Stahmeyer** suggests that an industry standard is required - and I have been a strong proponent of this for some years. TOD is willing to work with the industry in establishing the standard and lending its considerable engineering expertise to this effort.

Brendan McKenna
Company's president and COO of Trans Ocean Distribution
